## NOTICE

To all Gladiolus lovers, beware of the THRIP. It does not matter where your bulbs came from, do not take any chances. Here is a very sure remedy: First, before you plant your bulbs, soak them in the following solution: One can of ordinary Concentrated Lye to 20 gallons water. Soak from 6 to 8 hours. Plant Immediately.

## SPRAYING TO PREVENT THRIPS

Spray with a fine mist, as soon as they are up 7 or 8 inches high with this formula:

2½ gallons of water, two teaspoonsful of Paris Green, ½ pint of molasses, one 35 cent bottle of Black Leaf 40. Mix the above thoroughly; spray once a week.

These remedies are best and the cheapest.

ALL STOCK LISTED HERE HAS BEEN FUMIGATED WITH NAPHTHALENE
